

i've been dreaming of something  
i've been dreaming of something  
and that something is you

i was young and so foolish  
i did not know what love meant  
but then you came along and opened my  
eyes  
oh you satisfy me

i've been dreaming of something  
i've been dreaming of something  
and that something is you

the way you say my name leaves me  
feeling speechless  
i go floating in your eyes  
the things you do to me  
no i've never had done before  
oh you satisfy me

i've been dreaming of something  
i've been dreaming of something  
and that something is you
