

i don't have much money
but I've got lots of time
I've got lots of times to run around
and lose my mind
and my soul is tortured
self inflicted don't know

but wish you were me
don't you wish you were me don't you
boy
yes you wish you were me
don't you boy

i got a bad reputation
of sleeping around with every woman in
town
and all the men are always shooting me
down

but if they only knew
i go home alone every night

but wish you were me
don't you wish you were me don't you
boy
yes you wish you were me
don't wish you were me
dонт you boy

oh and you see me on tv
suddenly I've got a new bunch of
friends
and they tell me they believe

that i should go
'cause i could be king
if i go swimming with those sharks

but wish you were me
don't you wish you were me don't you
boy
yes you wish you were me
don't wish you were me
don't you boy
