

my heart has been shattered
into a 1000 pieces
but that doesn't matter
cause im the one who cheated
and now i must try
erase every single moment
and now i must try
to forget every single days

and its so hard not to bitter
when found someone else
and its so hard not to bitter
when your left like a fool
and its so hard not to bitter
when you've found someone else

and here i lay naked
trying not to hate you
and all the things you gave me
say hello hello oh baby
say hello hello oh baby

and all these words mean something
yes im afraid
im still loving you
and your still a miracle
saving me from myself
saving me from myself
saving me from myself

and its so hard not to bitter
when found someone else
and its so hard not to bitter
when your left like a fool
and its so hard not to bitter
when you've found someone else
