

love has always been
a mystery yeah
all ways been like this
thru out history
as long as we've got each other
we can make it thru im sure
the road seems long
but not when your here
and the sun shines in your eyes
yes makes me feel so alive

i really love you yeah
and now i know
i dont want to loose you
no
i really love you yeah
and now i know
i dont want to loose you
no

and time is a fun thing
cause when im with you
years just disappear
and even when we fight
it seems alright
cause one of us will
swallow our pride
then i'll hold you in my arms
and everything alright

i really love you yeah
and now i know
i dont want to loose you
no
i really love you yeah
and now i know
i dont want to loose you
no

dont believe a word they
oh i love you
i know ive been a fool
i know ive been cruel
but i love
oh nothings better
no nothings better than you
