

my world has turned black  
my world has turned black  
cause my girl yes my girl has left me  
and i want her back

its not the 1st time  
that we say good bye  
but maybe this time we better get smart girl  
cause you know how low it makes us feel  
you know we better get smart girl  
you know you i want you back

so here are the facts  
she's living to far away  
and im holding her back  
and thats just not the way  
cause its killing us  
yes its killing  
killing us both

its not the 1st time  
that we say good bye  
but maybe this time we better get smart girl  
cause you know how low it makes us feel  
you know we better get smart girl  
you know you i want you back

so give me one reason  
why we should stop believing  
oh give me one reason  
why we should stop believing  
that our love is worth leaving

its not the 1st time  
that we say good bye  
but maybe this time we better get smart girl  
cause you know how low it makes us feel  
you know we better get smart girl  
you know you i want you back
